

How to share a Virtual Tour or video on your Rightmove Listing

If you are looking for help to upload your Virtual Tours and videos to your listings on Rightmove here is a quick step by step guide to how to do that.

If you usually upload your listings to Rightmove using an automatic data feed

Continue to upload Virtual Tours and videos to your properties using your data feed – you will not be able to upload Virtual Tours and videos within Rightmove Plus. The only feature that you will use in Rightmove Plus will be the “Online Viewing” tick box, found when you edit a property from the Property List. Simply go to the “Online Viewing” tab and tick the box, then Save and Make Live.

All other changes, including uploading Virtual Tours and videos will still need to be done using your automated data feed from your software.

If you usually upload your listings to Rightmove using Rightmove Plus

Follow the steps below to upload your Virtual Tours and videos to your listings.

First log into Rightmove Plus

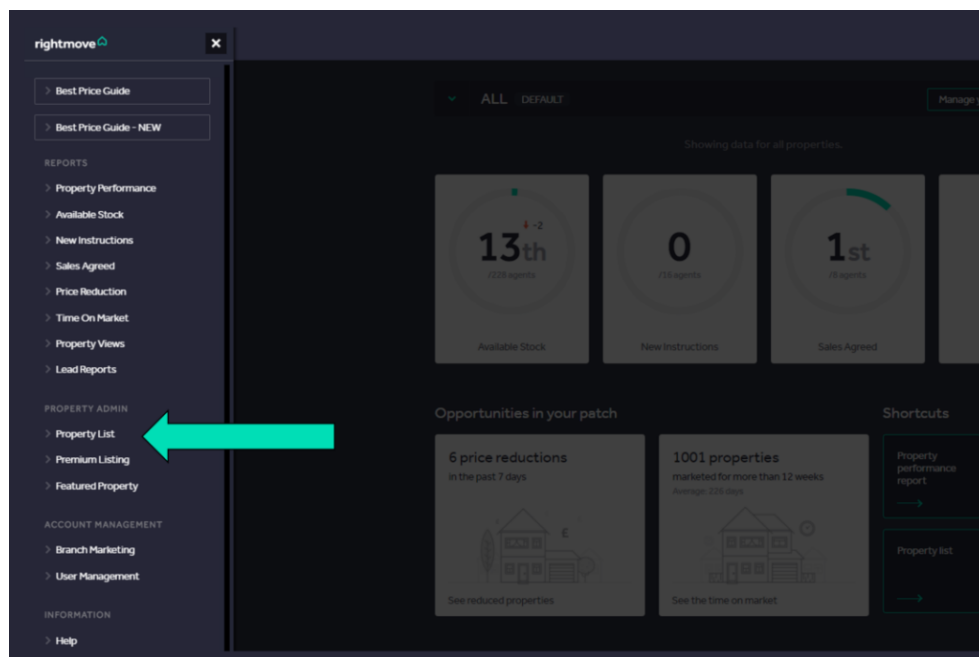

To make changes to your property listings and add content like Virtual Tours and videos you will need to log into Rightmove Plus. You can do this by clicking on the Rightmove Plus link in the footer of the Rightmove homepage or by [following this link.](https://rmplusportal.rightmove.co.uk/) (<https://rmplusportal.rightmove.co.uk/>)

The image shows a login page for Rightmove Plus. On the left, there is a light gray box with the title "Login to Rightmove Plus" and the text "Find all the tools, reports and stats to help build your property business." Below this text is an illustration of a computer monitor displaying a circular progress chart. On the right, there is a white box containing the login form. It has two input fields: "User email" with a placeholder "Your email" and "Password" with a placeholder "Password". Below these fields is a red "Login" button. At the bottom of the white box, there is a link that says "Reset your password" in blue text.

You will need to enter your email address and password, don't worry if you've forgotten your password you can always reset it.

Go to Property Admin

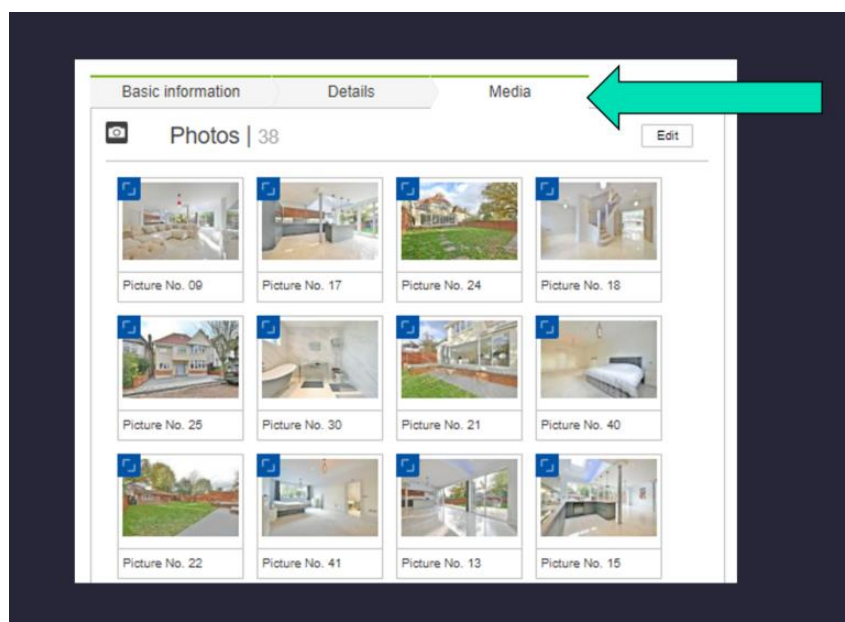

Once you are logged in, you will see your Rightmove Plus dashboard and on the left of the screen will be the menu icon. Click on that and select **Property List** from the options.

Editing a property

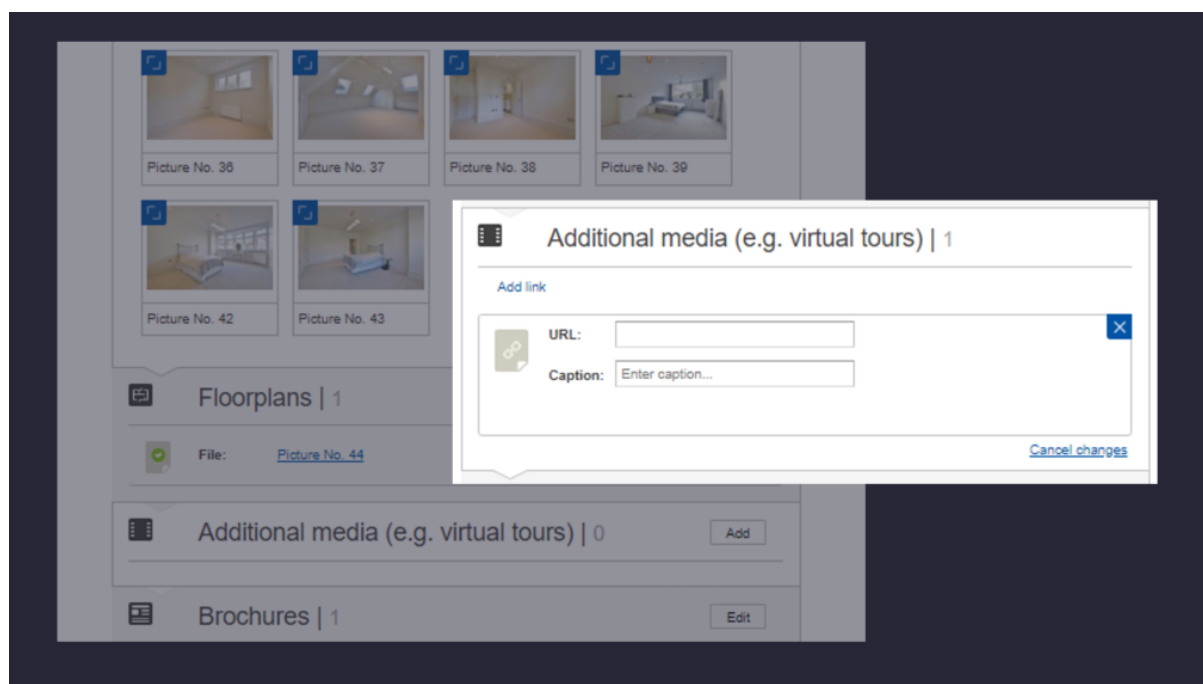

Choose the property you wish to add your Virtual Tour or video to by clicking on the image of the property or the first line of the address, which is highlighted in bold.

From there you can amend the Basic Information of the property, such as the address and price, but you'll need to click on the **Media** tab.

This is where you will see all the property photography and helpful things such as floorplans and brochures.

Look for the section called **Additional media** and click on **Add**

Please be aware: Your content will need to be hosted online.

If you use YouTube or Vimeo, the content will be embedded in the Property Details page and viewable within the property listing. You can also share an externally hosted secure link. For example, your software supplier may provide a URL or you may host Virtual Tours or video on your own website. In that case, the Virtual Tour or video will appear in a separate pop-up window.

Enter the URL of the Virtual Tour or video with a caption summarising the content and click on the **Save button**.

Next, go to the **Online Viewing tab** and make sure you check the box to say there is an Online Viewing available. You will need to do this manually for each property within Rightmove Plus even if your properties are usually updated via a data feed.

Basic information	Details	Media	Online Viewing NEW
<h2>Online Viewing</h2> <p><input checked="" type="checkbox"/> Online Viewing available</p> <p>When you tick this box, we'll add an "Online Viewing" call-out to your property listing to highlight to applicants that a Virtual Tour or video is available for this property. Your vendor or landlord will also be able to see this when they check their listing online.</p>			

And that is it...

Your content will appear online and be instantly recognisable as having a Virtual Tour to Video, indicated by the orange "Online Viewing" call-out box on your listings and the video icon in the top left of the listing.
